

GOLDEN EAGLES MOTORCYCLE CLUB

GEMC *October News Letter*

THANKLESS JOBS

Yeah, if you look around at our club, and pay attention, you'll notice many who work behind the scenes and make our club successful. Ever wonder who stocks the refrigerator? John Mitchell does.

Ever see the groceries coming in the door? Mary and I do. Ever think about paying the bills? Mike Kogut and Dan do. Notice the lawn? Mike Kogut keeps our vendor working. Ever notice that after a party the kitchen is clean? Who do you think? We ought to have the girls sit and visit for a change! It's not really fair to always have the same ones always clean up.

I would like to thank someone who made my time riding with this club some of the best times I have ever dreamed I could have. I never rode in a group before joining the Golden Eagles - that I enjoyed. I got good advice to improve my riding. I learned how to ride some of the most challenging roads. I followed one of the best riders I have ever seen and got left behind on some of the twisties when I thought I was doing my best. I learned all about motorcycle camping.

And now as president I see him leading new members on roads they never knew existed. I see him leading rides when I know he would rather stay home. A thankless job? Maybe so. But not any more. Thank you Grant. Thanks for all you have done for me and thanks for all you bring to this club.

And, Thank You, to all who keep chipping in to make this club the club it is. Thank you very much. All clubs have some

DEC 3rd – Meeting night and Christmas Party.

members more active than others. And that is because we all have lives outside the club and we all have different demands placed on us and our schedules. Not that that is bad. It's the way it is in life. But what is true is, the more time you invest in something the richer the experience will be for you. "You get out what you put in!"

Jim Fait
President

Political Action Committee

This may be the 2012 Presidential candidate that the GEMC Political Action Committee is backing. Any other suggestions will be entertained momentarily and then sent immediately to the out box (Trash).

SNIPPET: A bike is stolen every 18 minutes, 75% are stolen from their owner's house.

You Never Know:

A motorcycle patrolman was rushed to the hospital with an inflamed appendix. The doctors operated and advised him that all was well. However, the patrolman kept feeling something pulling at the hairs on his chest. Worried that it might be a second surgery the doctors hadn't told him about, he finally got enough energy to pull his hospital gown down enough so he could look at what was making him so uncomfortable. Taped firmly across his hairy chest were three wide strips of adhesive tape, the kind that doesn't come off. Written in large black letters was the sentence: "Get well soon..... from the nurse you gave a ticket to last week."

THOUGHT BRUCE WOULD ENJOY THIS ONE !

But honey, this is for the Smokie Mountain club 3 day rally and I really need all of this stuff. I guess you'll be staying home ?

FACTOID: When cornering, 75 per cent of a bikes grip comes from the front tire.

SPECIAL FIELD REPORT:

Grant apparently did not trust leaving his cycle outside the hotel during the Rocky Mountain Ride. And besides, his bike can easily ignore his Railroad level snoring.

Women are better than motorcycles because....

A good woman maintains herself.

A good woman can help you get more motorcycles.

After a good ride a woman will kiss you.

Most places don't require you wear a helmet when riding a woman.

Both respond to loving attention.

A woman can love you back.

Both can leave you cold, stranded and broke.

Women can be fun in any kind of weather.

Holding on too tight to either one will cause you problems.

A good woman can pay for her own accessories.

It's more dangerous to let your motorcycle take you home after a few beers.

A motorcycle can only take you to the beer, a woman can bring the beer to you.

Both come in models that may exceed your abilities.

Both can cause your heart to pound, and make you sweat and shake.

WARREN.... ARE YOU OK!

Bruce Schulman finally added an accessory to his bike to help eliminate people and vehicles who won't move over to let him pass!

I need articles to publish for our Newsletter. Anything is acceptable and will be considered.

Please email to jmott001@tampabay.rr.com or jmott001@gmail.com. The easiest format to use is a Word document. We'll spice it up with graphics and special text formats for you.

JUST REMEMBER:
